

A BETTER WAY TO VISION CARE

At Kaiser Permanente (KP), our integrated vision care can mean better chronic condition management.¹ That's great news for health care costs.

3x

Three times more likely to visit. A member with a KP optical benefit is more likely to visit an Optometrist than those without a KP optical benefit.² Members value having a KP optical benefit.

The eyes are the window into a person's overall health.

Our comprehensive eye exams help reveal other hidden eye and chronic conditions such as diabetes, glaucoma, and brain tumors.

As a connected team, health issues uncovered during the eye exam are seamlessly routed to a KP physician who can continue the care.

Kaiser Permanente members typically have coverage for medically necessary eye examinations, and some members, including those members with the pediatric vision benefit under their Affordable Care Act plan, may be able to apply a supplemental benefit to their purchases. Otherwise, the services and products described here are provided on a fee-for-service basis, separate from and not covered under your health plan benefits, and you are financially responsible to pay for them. For specific information about your covered health plan benefits, please see your Evidence of Coverage. Photo of model shown, not actual patient. 1/2021 |

GREAT EYEWEAR, EXCELLENT COVERAGE AT COMPETITIVE RATES

ADDING A KP OPTICAL BENEFIT IS AS EASY AS...
