Choosing a dentist

For a list of participating dentists in our new, expanded dental network—or information about a particular dentist, such as office hours, directions, or languages spoken, visit **DominionNational.com/kaiserdentists** or call Dominion Member Services at **1-855-733-7524 (TTY 711)**, Monday through Friday, 7:30 a.m. to 6 p.m.

Specialty care is also available in many locations, without a referral. Services received from non-participating dentists are not covered.

Quality dental care

You can be confident that your dentist was carefully selected to offer quality care. All participating dentists go through a strict quality assurance program developed in accordance with the National Association of Dental Plans' recommendations. This process confirms that each dentist has the required credentials and has passed a thorough on-site office evaluation.

How does the comprehensive plan work?

After your effective date of coverage, you can make an appointment with a participating general dentist. Make sure you bring your Kaiser Permanente medical ID card to your appointment. There is no separate dental ID card. And you'll have virtually no paperwork and no pre-existing condition exclusions to worry about.

Dedicated member service

Quality service is an important part of any dental plan. Knowledgeable Dominion Member Services specialists are available Monday through Friday from 7:30 a.m. to 6 p.m. to answer questions about coverage or to help you find a participating dentist. Dominion's voice response system is available 24 hours a day for information about participating dental providers in your area or to help you select a dental provider. The most up-to-date list of participating dental providers can be found online.
